EXTENSIVE EXPERTISE IN MANY DIFFERENT SECTORS

Equans Products, Shops & Related Services offers you a wide range of solutions for your technical installations. With our dedicated expertise and innovative solutions you can ensure the efficiency, reliability and availability of your devices, machines and industrial processes. Our teams are driven by the need to deliver quality performance, service optimization and customer satisfaction.

They develop a customized approach for your requirements, while paying full attention to safety, health and the environment.

EXPERIENCED SPECIALISTS

The strength of Equans is inherent firstly in its employees. Our experienced engineers and technicians can effectively deal with your specific problems. But we also have experts for standard work. We always start by understanding your needs and work towards solutions to answer them.

AT YOUR SITE OR IN OUR FULLY-EQUIPPED WORKSHOPS

Maintenance, overhaul and repairs are done in our own workshops or at your site. Our workshops feature most modern equipment. They can handle large volumes and dimensions, specific techniques and measurements, scanning. We also have the necessary measuring and testing equipment. For maintenance, overhaul and repair on site we have mobile units and, if requested, we can mobilize a pool of technicians.

CERTIFIED ENVIRONMENT AND PROCESSES

We are equipped and organised to work under to the most demanding quality standards. Our own work-shops are certified facilities: each workshop meets the ISO 9001 and ISO 14001 standards. In addition, we are certified to perform work in specific fields such as the nuclear sector or petrochemical industry.

HIGH CAPACITY AND FLEXIBILITY

As part of a large worldwide organization, we can handle high volumes, in part because we have access to a large material inventory and a responsive logistical operation. We're organised into smaller, specialised units, which also makes us highly flexible. This adaptability allows us to can handle smaller assignments, which sometimes require very specific knowledge, quickly and efficiently. Our brand independence and our broad network further augment our flexibility.
